## Last Call of the Season

## Young Rose Plants From Pots

Propagated from wood taken from Blooming Field Plants. Over 100 prime varieties at hard times prices. Come quickly if you wish to get in on this.

THESE ROSES are in nice condition, and prime root system. They will GROW INTO MONEY for you faster than anything you can put in the ground. You cannot buy rose plants thus propagated elsewhere in the United States.

WE WILL PREPAY EXPRESS on all orders we fill for 2000 plants and over—on QUICK ORDERS. Less quantity buyer pays the transportation.

PACKING—We remove soil, or nearly all of it, and dip roots in muddy water, wrapping in damp moss. They generally weigh so packed from twenty-five to forty pounds to the thousand plants.

## Special Offer VARIETIES POSITIVELY OF OUR OWN SELECTION. EXPRESS PAID BY OURSELVES.
